Miles Reiten brings a wealth of expertise to the Kidder Mathews Land & Agribusiness team. As an associate broker based in Ventura, CA, he specializes in debt and structured finance services for a wide range of land and agricultural assets on the West Coast.

With family ties to California's Central Valley, Miles Reiten has developed a great admiration for agriculture and those who participate. Miles is a graduate of the University of Southern California's Marshall School of Business, where he majored in business administration with an emphasis in real estate finance.

Miles' introduction to agriculture came from working for the nation's largest avocado grower during his time at USC, learning the investment and operating side of the business. His five years of experience in real estate include roles at AgAmerica Lending, where he advanced to associate director, managing a significant portfolio of clients and their ag financing needs all over the Western US. Over five years, Miles worked on over \$200M in closed loan volume, from underwriting to the final closing table. Miles has a proven track record of working with a full spectrum of agricultural clients and accomplishing custom-tailored solutions for their operations. Miles' strength is solving complex problems and has helped facilitate financing for a wide range of property types, including vineyards, permanent plantings, and row crops.

In his free time, Miles enjoys the ocean and spending time outside. Miles is an avid golfer, and loves traveling all over the country to play.
